

The King's Chapel as a whole is following the VA Recommendations for Faith Based Organizations as a precaution to keep your family healthy while worshipping at The King's Chapel.

In addition, the King's Kids Ministry will do the following:

- Temperatures will be taken for the children and workers. If anyone has a temperature of 100 degrees or more, they (and their family) will be asked to go home.
- We ask everyone to use hand sanitizer at check-in. We are encouraging frequent hand washing and will increase ventilation and maintain social distance when possible in the classrooms.
- If you or anyone in your family has been sick in the last 48 hours - fever, diarrhea, vomiting, flu, excessive runny nose, persistent cough or have had COVID - please stay home until you and your whole family are symptom free for 48 hours.
- We are asking our childcare workers to wear a mask with the children while they are in the classrooms to help reduce the transmission of germs. The parents of the children decide if their children wear masks.
- Our rooms are disinfected between uses and all toys and equipment that have been used are washed or wiped down to prevent the spread of germs.
